

St. George Catholic School- 8th grade Earth Science

Job Summary

The 8th grade Earth Science teacher fulfills the mission of St. George Catholic School by planning, guiding, and evaluating the learning process of Earth Science in accordance with the learning standards. This is a full-time position.

Ministerial Character

Positions employed at St. George Catholic School help extend the ministry of the school leaders as outlined in the job description. The employee in this position is closely connected to and assists the school leaders in the performance of their ministry and, therefore, engages in ministry for the Church.

Essential Duties

- Support and uphold the philosophy of Catholic education and the mission of the school.
- Act as a witness to Gospel values by modeling the teachings of the Roman Catholic Church.
- Plan for instruction with logically sequenced objectives based on adopted curriculum and submit plans according to the school policies.
- Utilize appropriate material and resources for students to engage in learning.
- Use effective instructional methods and models according to professional standard practice.
- Use varied assessment tools to perform both formative and summative assessments.
- Provide instruction and assessment for understanding.
- Maintain current and accurate records according to school policies.
- Practice positive, consistent discipline in the management of the classroom.
- Communicate with parents regarding academic, behavioral, and safety concerns.

Minimum Qualifications

Education:

- Bachelor's degree in the subject taught or related field from an accredited university with successful completion of appropriate state certification exam.

Please send resume and cover letter to angele.fontenot@sgschoolbr.org before October 2, 2020.
